

University of Central Florida Environmental Management System EMS Form 0003-08

LAB SAFETY SELF-AUDIT CHECKLIST

	Date:	PI or Supervisor:		
Name or Description:		Department:		
Laboratory Hazards: Chemical □ Biological □ Radiation □ Other □				
Type of Laboratory: Research □ Teaching □ Mixed □ Storage □ Preparatory □ Other □				
1. Chemical Storage				
Y N N/A				
1.1. □ □ □ Incompatibles stored separately				
1.2. □ □ Chemicals stored away from sunlight and other heat sources				
1.3. □ □ Chemical containers properly labeled				
1.3. □ □ Chemical containers properly labeled 1.4. □ □ Containers closed except when in use (storage/waste)				
1.5. □ □ Chemicals stored off of floor 1.6. □ □ Chemicals and food stored separately 1.7. □ □ □ Chemicals stored in companying containing				
1.6. □ □ Chemicals and food stored separately				
1./. \square \square \square Chemicals stored in appropriate containers				
1.8. Containers are in good condition Containers are in good condition				
$1.9. \sqcup \sqcup \sqcup Flammables$ stored away from exits				
1.10. □ □ □ Flammable quantity outside storage less than approximately 38 liters				
1.11. \square \square Storage of large con	ntainers/corrosive materials below	w eye level		
1.12. \square \square Hazardous material	s stored in appropriate areas			
2. Special Chemical Problems Y N N/A 2.1. □ □ □ Water reactives store	ed away from sinks and pipes			
2.1. □ □ Water reactives stored away from sinks and pipes				
2.3. □ □ Reactive metals stored properly				
2.4. \Box \Box Highly toxic chemicals stored in secondary containers				
3. Gas Cylinders				
Y N N/A				
3.1. \square \square Properly labeled (lab	pels facing forward), stored uprigi	ht, and secured		
		parated by a fire wall		
3.3. \square \square \square Capped when not in	use			
3.4. \square \square Empty cylinders man	ked "MI" and stored separately			
3.3. \square \square Koom ventnation ap	propriate for cyffider storage			
4. Hazardous Waste/Satellite Accumulation Area (SAA)				
Y N N/A				
4.1. □ □ □ All hazardous waste is properly sealed and labeled				
4.2. \square \square All lab personnel are	aware of hazardous waste dispos	sal procedures		

Issue Date: 11/23/2009 Page 1 of 3
Revision # 0 Controlled Document

University of Central Florida Environmental Management System EMS Form 0003-08

4.3. \square \square Waste quantities have not exceeded waste accumulation limits of 208 liters (55 gallons) or
liter (one quart) acutely hazardous (p list).
4.4. \square \square Chemical waste must be in a sealed container that shows no sign of leakage or damage.
4.5. □ □ □ There are no broken caps or stoppers
4.6. \square \square All corrosives and halogenated solvents are in glass or plastic containers.
4.7. \square \square All halogenated solvent waste has been collected and stored in separate containers from other
solvent waste.
4.8. \square \square All containers of waste are securely closed, except when wastes are being added to (including during in-line waste collection) or removed from the container
4.9. \square \square All containers of incompatible laboratory wastes are stored in separate areas or use
chemically resistant trays for segregation.
$4.10. \square \square \square$ All in-line waste collection systems are constructed to prevent the release of laboratory
waste into the environment.
4.11. □ □ □ There are no unknowns nor expired chemicals present in the lab.
5. Fume Hood/Local Exhaust
Y N N/A
5.1. \square \square Fume hoods inspected within last 6 months
5.2. \square \square Chemical storage in hoods is kept to a minimum
5.3 \square \square Hood is equipped with a flow alarm monitor
5.4. Storage is to the rear of the hood 5.5. Other level exhaust preparty functioning
5.5. \square \square Safe sash height is being observed
5.6. \square \square Other local exhaust properly functioning
5.6. □ □ □ Other local exhaust properly functioning
· /
6. Eye Wash/Safety Shower
Y N N/A
6.1. □ □ □ Shower/eye wash unit present
6.2. \square \square Unit located away from electrical equipment
6 3 \square \square Routine maintenance performed
6.4. \square \square 16 inch clearance around unit observed
6.5. \square \square Shower and eye wash are clearly labeled
6.6. \square \square Shower and eye wash within 10 seconds or 100 feet of hazards
7. Electrical/Mechanical Concerns
Y N N/A
7.1. \square \square Breaker panels and safety switches accessible
7.1. \square \square Breaker panels and safety switches accessible
7.3. \square \square Multiple plug adapters not in use
7.4. \square \square Electrical cords intact and out of aisles
7.5. \square \square Extension cords intact and used appropriately

8. General Facility Maintenance

Issue Date: 11/23/2009 Page 2 of 3
Revision # 0 Controlled Document

University of Central Florida Environmental Management System EMS Form 0003-08

Y N N/A	
8.1. \square \square Entrances posted with emergency contacts	
8.2. \square \square Exits and aisles are unobstructed	
8.3. □ □ □ Aisles have minimum 28 inch clearance	
8.4. □ □ General housekeeping is satisfactory	
8.5. \square \square No Food or Drinks	
8.6. □ □ □ Appropriate fire extinguisher is present, mounted, and accessible	
8.7. \square \square Copy of Chemical Hygiene Plan is available	
8.8. \square \square MSDS for all hazardous chemicals available	
8.9. \square \square Personnel wear appropriate protective equipment	
8.10. \square \square Vacuum breakers installed on hoses where standing water from equipment could be	
siphoned back to faucet	
8.11. □ □ □ Spill kit and instructions are readily available and clearly posted for small spills	
8.12. □ □ □ Glass and Sharps are properly disposed
